

Acaster Malbis Parish Council

Dear Ed Bainbridge

21/02347/FUL – 28 Lakeside

At a meeting of the Parish Council on 08 November 2021 it was resolved that:

C We do not object but wish to make comments or seek safeguards

The Parish Council has no objection to the application to create single storey extensions to the side and rear of the property. The Council, however, would like to comment on the design of the proposed gates.

Existing properties in the Lakeside development can be broadly divided into two categories: those that have no gates to their driveway; and those that have traditional 5-bar style gates. In each case there is an 'open' feel to the development that can be traced back to the original design, and this has been maintained over the years as gates have been replaced.

The proposed new gates diverge significantly from the current style of gates and we would ask the applicant to consider solutions more sympathetic to the original architectural design of the development.

Yours sincerely

Craig Booth
